

## **Castout**

**100 million are homeless. 1.6 billion lack adequate housing.**

**Jesus urges, Bring to your house the poor who are cast out!**

## **The Hungry**

**1 out of 10 people in the world do not have enough food to sustain them**

**Jesus demands,  
Share your bread with the hungry!**

1 out of 10 people in the world (815 million) do not have enough food to sustain them. This isn't just being hungry. It is malnutrition serious enough to cause dizziness, fatigue, stunting, delay in mental development, proneness to disease, and eventually death.

Mothers and their daughters suffer the most, making up 70% of the 1.3 billion people who struggle with severe poverty (worldhunger.org).

The average American spends close to \$3,000 a year just on eating out. 3 out of 12 people in our world have to live on that to cover all their food, water, rent, and everything else. That's about \$3.20 a day per person.

**I want to help heal this hurt. I will research, pray, and use my influence, money, and time.**

An estimated 100 million people are homeless. 1.6 billion lack adequate housing, perhaps wondering how to keep out the rain, the cold, or maybe a thief (stwr.org). The cities with the most homeless are: Manila, New York, Los Angeles, Moscow, Mexico City, Jakarta, Mumbai, Buenos Aires, Budapest, and Sao Paulo (Habitat.org).

Through war, natural disasters, and persecution, the numbers of displaced people continue to grow, now surpassing over a 100 million people. That's 1 out of 78 of our worldwide neighbors who can no longer live in their home or have their children go to their school. The situations were so bad that 27.1 million of those had to flee their countries as refugees with half them being children. Two thirds come from the hardest hit countries of Syria, Venezuela, Afghanistan, South Sudan and Myanmar ([unhcr.org](http://unhcr.org)).

## Pregnancy Crises

**4 out of 10 pregnancies worldwide end in abortion.**

**Jesus cries out, Do not hide yourself from your own flesh!**

## Orphaned

**There are 149 million orphans in the world who have lost one parent or more.**

**Jesus calls, When you see the naked that you cover him!**

There are more than 149 million orphans in the world who have lost one or more parents (UNICEF.org). In 2021 alone 14.9 million became orphans because of AIDS-related causes, mostly in sub-Saharan Africa. Many other children live on the streets because of homelessness, extreme poverty, and conflict at home. These children are extremely vulnerable.

Around 117,000 children in America are in need of adoption. About 437,000 children are in the foster care system (adoption.org). The three countries that provide the largest numbers of international adoption are China, India, and South Korea.

The most dangerous place in the world is the womb. Abortion is the leading cause of death in the world at 73 million every year (Guttmacher.org). 2,363 babies are aborted every day in America (liveaction.org). 4 out of 10 pregnancies worldwide end up in abortion (worldometers.info). It is estimated that over 100 million girls have been wiped out through gendercide—because a boy was wanted instead ([thelifeinstitute.net](https://thelifeinstitute.net)).
